Welcome to the Aspen Multi-Gen, a thoughtfully designed home plan spanning 3,145 square feet, embracing the perfect blend of space and comfort. Boasting 3-4 bedrooms, 2-3.5 bathrooms, a bonus room, formal dining room, and a main-floor primary suite, this floor plan offers versatile living options to accommodate a range of lifestyles.

Upon stepping into the home, you're greeted by an inviting den that sets a tone of sophistication. Venture down the hallway, and you'll discover the second bedroom, complete with its own full bathroom. Ascending the stairs to the second floor unveils a realm of possibilities. Alternatively, these areas can be transformed into the remarkable multi-gen suite, a sanctuary tailored for multi-generational families or guests. This suite encompasses a cozy sitting room, a convenient kitchenette, a private bedroom, a dedicated bathroom, and an ample walk-in closet. A private entrance further elevates the sense of autonomy. In the case of selecting the multi-gen suite option, the hall bathroom is elegantly converted into a discreet powder room, catering to the suite's self-contained arrangement.

Continuing the journey through the home, the layout gracefully transitions to the formal dining room, creating an inviting ambiance for gatherings and celebrations. From here, the great room unfurls, illuminated by an abundance of natural light streaming through large windows. This capacious area seamlessly flows into the well-appointed kitchen and the adjacent dining

nook, nurturing a sense of connectivity that modern families cherish.

On the opposite side of the home, the primary suite awaits, a luxurious retreat where relaxation and comfort intertwine. Pamper yourself in the opulent soaking tub or indulge in the walk-in shower – a personal oasis for rejuvenation. The generously sized walk-in closet provides ample storage for all your wardrobe needs.

Venturing to the second floor, you'll uncover the third bedroom and the bonus room, offering a versatile space that can adapt to your unique desires – whether it be a recreational area, a home office, or a creative studio. Alternatively, this space can be easily transformed into a fourth bedroom, complete with a full bathroom and an adjacent loft area that offers additional flexibility.

The Aspen Multi-Gen floor plan harmoniously combines the essence of modern living with a consideration for diverse family needs. From its expansive main-floor offerings, including the multi-gen suite option, to the dynamic second-floor spaces, this home is a canvas upon which you can craft a living experience tailored to your preferences and aspirations.
