  Car Garage

The Shasta home plan is a beautifully designed single-level home offering 2,959 square feet of spacious living, with 3 to 4 bedrooms and 2.5 to 3 bathrooms. With its thoughtful layout, open-concept design, and flexible options, the Shasta provides the perfect balance of elegance, comfort, and everyday functionality.

As you approach the home, a welcoming front porch sets the tone for what's inside. Upon entry, you're greeted by a spacious foyer with a stunning dining room on one side and access to a large den on the other, perfect for a home office, study, or flex space. For added versatility, the den can be converted into a fourth bedroom with a full bathroom, making it ideal for guests or multi-generational living. The dining room connects to the main living area and kitchen through a convenient butler's pantry, adding both style and functionality.

Just beyond, the home opens into the expansive great room, featuring 12-foot ceilings and large windows that flood the space with natural light. An optional 12-foot sliding glass door provides direct access to the included covered patio, creating an effortless connection between indoor and outdoor living. Just off the great room, you'll find a powder room as well as the primary suite, which is thoughtfully positioned for privacy and comfort. The suite features abundant natural light, with the option to add a sliding glass door for direct backyard access. The primary bath includes a walk-in shower, soaking tub, and a large walk-in closet, with additional options for a fully tiled shower, custom tile shower, or a large glass shower for a spa-like experience.

The great room flows seamlessly into the chef's kitchen, complete with a large island, ample counter space, a spacious pantry, and an adjoining dining nook, perfect for both entertaining and everyday meals. The dining nook also provides access to the included covered patio, giving homeowners multiple ways to enjoy the outdoor living space. Down the hall from the kitchen, you'll find a well-appointed laundry room with access to the 3-car garage, along with two additional guest bedrooms and a full bathroom, creating a private and functional wing of the home.

With its generous living spaces, high ceilings, included covered patio, and flexible design options, the Shasta home plan offers a refined single-level living experience tailored to meet a variety of lifestyles.
